

Year 1 Homework - Term 6

This term will be doing some very creative writing about being on safari and even performing some poetry!

Thank you for the lovely homework you sent in last term. We have loved sharing and displaying all of your work. The school almost took off because of all of your wonderful rockets and spaceships!

Below are some ideas for homework projects this term. We would love to see at least 4 pieces that we will share throughout the week.

Please continue to read with your child and record ALL reading in the reading log so we can count it towards the century challenge. Try and get in as much phonics practice as possible before this term's Phonics Check.

<u>Phonics - nonsense words practice</u> Go onto the Y1 school website page and find the document of nonsense words. Make some flashcards and practise reading them. 	<u>Writing - postcard</u> Write a postcard to your teacher as if you have been on safari. Don't forget to draw a picture on the front to show us how great it looks there.	<u>Mental health and wellbeing</u> Go for a walk around Lawn and create a journey stick: https://www.youtube.com/watch?v=tshV8Ud-iLA
<u>D&T</u> Design and draw your dream healthy smoothie. Which ingredients would be in it? 	<u>Science</u> Can you go on a plant walk? Record all of the plants you see and take photos or do some drawings if you can! 	<u>Reading</u> Build a den and read your favourite book in it. You could even listen to your favourite audio book in there! 
<u>Maths</u> Can you put the days of the week in the correct order? What time do you get up/go to bed? Can you create a timetable for one of your school days? 	<u>Phonics - reading split sounds</u> These QR codes will take you straight to the videos. 	<u>Geography</u> Make a fact file about the Lawn area. What can you do? Where can you go? Do you have a favourite place and how do you get there?
